235C William Keeton House  
Ithaca, NY 14853

I am a junior pursuing a computer science degree looking for a summer opportunity, particularly in backend and front end web applications. Additionally, I also take great interest in print and digital design.

**WORK  
EXPERIENCE**

2013 – Present

**Head of Design & Associate Developer  
Life Changing Labs**

Ithaca, NY

Entered as Summer Intern and continued as a part-time developer over the following semester. Currently oversee all design needs of the company as well as take on freelance web development projects throughout the year as an associate developer. Frequent tools include Django and Jekyll.

2012 – Present

**Design Editor  
The Cornell Business Review**

Ithaca, NY

Led all relevant design efforts, such as print publication and marketing. Supervised a small team of 4-5 designers each semester and coordinated related logistics with editors of each team.

**EDUCATION**
