1925 Massachusetts Ave • Cambridge, MA 02140

EDUCATION

Cornell University

August 2012 - May 2016

Bachelor of Science in Computer Science
GPA: 3.2

Teaching Assistant for Web Programming and Design (2014)
Active Citizen in the William Keeton House (2013-2015)

EXPERIENCE

IBM

July 2016 - Present

Software Design Engineer

Cambridge, MA

- Implemented complex UI designs of healthcare softwares, particularly those related to medical imaging.
- Built and scaled a component library across Watson Health Imaging products.
- Performed contextual user research in the healthcare domain which led to thoughtful UX designs and executions.

Blue State Digital

May - August 2015

Web and Product Development Intern

New York City, NY

- Implemented and deployed campaign analysis tools to collect and interpret constituent data for numerous nonprofit and political clients.
- Coordinated with product managers, UI, and UX designers to build responsive user interfaces on top of ExpressionEngine using Foundation, SASS, and Grunt.
- Identified cross-browser and responsive incompatibilities using BrowserStack and Litmus and filed and resolved tickets on Jira and Mavenlink.

Contract Developer

2012 - 2016

- Worked with over a dozen clients (students, professors, alumni) over several years using the full extent of my technical toolbelt.

ACTIVITIES

Cornell Business Review

2012 - May 2015

Design Editor

Ithaca, NY

- Led the design team (4-5 members) to produce a 40/44-page semesterly released publication.
- Sat as an executive board member to determine budget, recruitment, and marketing and product strategies.
